PROFESSIONAL SUMMARY

Full Stack Developer with 3.9+ years of experience building scalable, user-centric web applications across both frontend and backend layers. Strong expertise in modernizing frontend architectures, improving application performance, responsiveness, and SEO, while ensuring seamless integration with backend services. Experienced in developing reliable APIs, optimizing data access, and designing scalable cloud-ready systems. Adept at collaborating in agile environments and delivering clean, maintainable, and production-ready code. Passionate about continuous learning and leveraging modern tools to build high-quality, business-driven solutions.

SKILLS & CORE COMPETENCIES

Programming Languages & Frameworks

JavaScript, TypeScript, React, Node, Express, Next.js, Redux Toolkit

Database Management

PostgreSQL, MySQL, MongoDB

Cloud Platforms & AI Tools

AWS, Google Cloud, Cursor.ai, Google Gemini, Chat GPT

Version Control

Git, GitHub, GitLab

WORK EXPERIENCE

Full Stack Developer

Kratin Software Solutions (Truliacare India)

Apr 2024 - Present

Nagpur, MH

- Refactored legacy React/Next.js code with lazy loading and CDNs, improving page load speeds by 25% and increasing SEO performance scores.
- Optimized Node.js APIs via caching and pagination, achieving a 20% reduction in latency while supporting an increase in concurrent users.
- Architected serverless AWS workflows (Lambda, App Runner), reducing infrastructure costs by 15% and maintaining 99.9% system uptime.
- Enhanced PostgreSQL performance using Kysely/Drizzle/Sequelize/Knex and strategic indexing, cutting complex query execution times by 30%-40%.
- Re-engineered backend cron jobs and transaction fail-safes, reducing server CPU overhead by 30% and eliminating data race conditions.

Full Stack Developer Oxycytech System	Apr 2023 - Mar 2024 Pune, MH (Remote)
<ul style="list-style-type: none">• Spearheaded the end-to-end development of a centralized Admin Module, transforming business requirements into a production-ready system within a 12-month lifecycle.• Engineered a high-performance frontend using React.js and Material UI, implementing reusable component architectures that improved development efficiency by 20%.• Developed scalable backend services with Node.js and MySQL, designing optimized relational schemas and RESTful APIs to handle core administrative workflows.• Collaborated on UI/UX enhancements, leveraging Material UI's responsive grid system to ensure seamless cross-platform compatibility for internal stakeholders.	

Full Stack Developer (GAT) Hindustan Petroleum Corporation Limited	Apr 2022 - Mar 2023 Nashik, MH
<ul style="list-style-type: none">• Developed full-stack features using the MERN stack to digitize internal workflows, contributing to the modernization of legacy data tracking systems.• Built and integrated RESTful APIs in Node.js to facilitate seamless communication between the React.js frontend and MongoDB, ensuring high data integrity.• Collaborated in an Agile environment, participating in daily stand-ups and sprint planning to deliver project milestones within strict enterprise timelines.	

EDUCATION

Bachelor of Engineering Anjuman College of Engineering and Technology	2016 - 2020 Nagpur, MH
<ul style="list-style-type: none">• Honored with Branch Topper recognition in two consecutive years.• CGPA: 9.20 (Distinction)
